

SHAHRYAR KHALID

Data & AI Engineer

Lahore, Pakistan | +92 324 6605924 | shahryarkhalid692@gmail.com | [linkedin.com/in/shahryarkhalid](https://www.linkedin.com/in/shahryarkhalid) | github.com/shahryarkhalidd

SUMMARY

Data & AI Engineer specializing in real-time streaming and Change Data Capture (Apache Kafka, Debezium), cloud data platforms (Snowflake, Amazon Redshift, Google BigQuery), and production LLM workflows (Amazon Bedrock, RAG), with hands-on experience building ETL/ELT pipelines, AWS data lakes (S3, Glue, Athena), and large-scale warehouse migrations on Terraform-managed, security-hardened cloud infrastructure.

SKILLS

Languages & Core: Python (Pandas, PySpark), SQL, Bash

Data Engineering & Streaming: ETL/ELT, Data Modeling, Slowly Changing Dimensions (SCD), Apache Kafka, Kafka Connect, Debezium (CDC), Apache Airflow, dbt, Databricks, Azure Data Factory

Warehouses & Storage: Snowflake, Amazon Redshift, Google BigQuery, PostgreSQL, Microsoft SQL Server, Azure SQL Database, Azure Synapse Analytics, Amazon S3, Amazon DynamoDB, MongoDB

Applied AI & LLMs: Amazon Bedrock, Amazon Q, RAG Architectures, Vector Databases, LangChain, LlamaIndex, Prompt Engineering, Multimodal AI, Model Evaluation, Machine Learning

Cloud & DevOps: AWS (Lambda, Step Functions, Glue, Athena, API Gateway, EC2, IAM, VPC, GuardDuty, Security Hub), Terraform, Terratest, Docker, Git, CI/CD

Analytics & BI: Power BI, Tableau

EXPERIENCE

Data & AI Engineer | Devsinc

Nov 2025 – Present

- Designed an AI moderation pipeline on AWS Step Functions and containerized Lambda (Docker) that automates first-pass review of 10K+ images and videos daily, using Bedrock multimodal models, FFmpeg frame extraction, and K-of-N verdicts.
- Created the supporting data lake on Amazon S3 and DynamoDB, cataloged with AWS Glue and queried through Athena, and exposed real-time REST APIs via API Gateway and Lambda.
- Built an end-to-end RAG system that ingests 500+ internal Notion documents into Amazon S3 and Amazon Q, giving the sales team self-serve answers on projects, tasks, and opportunities; engineered prompts and evaluated answer quality.
- Engineered an S3-based vehicle telemetry ingestion process and feature set; diagnosed signal-logging discrepancies and built a hybrid deterministic + XGBoost model that predicts daily telemetry activity and improves cloud traffic forecasting accuracy.
- Jointly executed the migration of a 90 TB healthcare data warehouse from Google BigQuery to Amazon Redshift using AWS SCT and data extraction agents, with S3 staging, VPC/VPN connectivity, Redshift clusters across multiple environments, and staged validation before the production switch.

Associate Software Engineer | ClickTraces

Oct 2024 – Sep 2025

- Modernized a client's legacy database platform by migrating on-premises SQL Server 2016 to SQL Server 2022 on Amazon EC2, with automated backups and disaster recovery (DR).
- Automated secure VPC networking, VPC peering, and isolated developer and contractor environments with Terraform and Terratest, making infrastructure provisioning repeatable, version-controlled, and tested.
- Implemented AWS security governance across 4+ AWS accounts using SCPs, GuardDuty, Security Hub, CloudTrail, and IAM Identity Center least-privilege access, plus SNS alerting on security findings.
- Authored incident-response playbooks, supported an AWS Well-Architected review and remediation plan, and contributed to application development through code reviews and testing.

Data Engineer Intern | Systems Limited

Aug 2024 – Oct 2024

- Delivered a real-time CDC streaming pipeline using Debezium, Apache Kafka, and the Snowflake Kafka Connector to replicate SQL Server transactions into Snowflake with sub-minute end-to-end latency.
- Developed Azure Data Factory ETL pipelines across Azure Blob Storage and Azure SQL Database, implementing Type 2 Slowly Changing Dimensions (SCD) for historical employee records and feeding Power BI dashboards.

EDUCATION

Bachelor of Science in Computer Science (BSCS) | University of Central Punjab, Lahore

Oct 2021 – Jul 2025

CERTIFICATES & TECHNICAL TRAINING

- AWS Academy Graduate – Data Engineering | Amazon Web Services (AWS) | [Verify](#)
- AWS Academy Graduate – Cloud Foundations | Amazon Web Services (AWS) | [Verify](#)
- Google Advanced Data Analytics Professional Certificate | Google | [Verify](#)
